

DPA is pleased to announce a special agreement with **SmartProcure**, a unique information resource that provides information on purchases made by public schools and local, state and federal government agencies.

About SmartProcure:

SmartProcure is a user friendly database of school and government agency purchase orders that helps its users drastically increase government sales. With SmartProcure, DPA Members can identify specific government customers in their service areas that buy the products the Member sells. By itself, SmartProcure is powerful tool, and when used in tandem with DPA's exclusive **1GPA** contract, SmartProcure can significantly accelerate a DPA Member's government business!

Currently, SmartProcure contains records of over 536 million line items of products sold on more than 260 million purchase orders in tens of thousands of government agencies across the United States. Dollar value of purchases tracked by SmartProcure tops \$6.76 trillion, and more than 179,000 key purchasing contacts are listed in the database.

DPA is excited to announce that all DPA Members who sign-up for SmartProcure before end of February will receive a 25% discount.
