Americo Promotes Tom Owens to Director of Technical Services and Sourcing

ACWORTH, GEORGIA, May 28, 2013 – Americo Manufacturing Co. has announced the promotion of Tom Owens to the position of Director of Technical Services and Sourcing. This executive role expands Tom's current Technical Director responsibilities to include the management of the company's purchasing and sourcing initiatives. The new position is also responsible for the development of strategic supplier partnerships and pricing programs. Americo is currently experiencing an outstanding amount of growth. "As we look ahead, the company is making internal changes to ensure that our customers receive the same dependable service and high quality that they have come to expect from Americo worldwide. Tom's extensive product and trade knowledge will assist Americo in maintaining its leadership position within the industry, as our market share continues to expand," stated Lenny Shutzberg, Chief Executive Officer of Americo Manufacturing Co., Inc.

About the Company

Americo Manufacturing Company, headquartered in Acworth, Georgia is a leading manufacturer of sustainable products such as synthetic and natural fiber floor pads, hand pads, utility pads and floor matting. 100% of the polyester fiber used in pads produced by Americo comes from recycled material from post-industrial and post-consumer waste and the binders we use are based on water-based technology. Americo's products are currently sold worldwide as we enter into our 44th year of operation.
